

Change inventories for good

In response to the coronavirus (COVID-19) outbreak, we're closely following Public Health England guidelines. We have plans in place to maintain services for our customers and to protect the welfare of our employees.

- **We are currently carrying out inventories with every effort to increase our level of hygiene for everyone's safety (tenants, clerks, and landlords). Although inspections can take a longer time, we are keeping our standards, and maintaining the highest level of service, so you can rest assured your clients are getting the service they deserve.**
- **We are increasing the knowledge and expertise of our team by following an extensive training program, which keeps all of us performing and always ready to help, especially when it gets busier after the lockdown is over.**
